Professional Summary

Full Stack Java Developer with 1 year 10 months of experience building scalable, high-performance web applications using **Spring Boot, Hibernate, Java, react**, and **REST APIs**.

Technical Skills

- **Primary Skills:** Java , Spring Boot, Hibernate, JPA, RESTful APIs , PostgreSQL , Micro-services
- **DevOps & Deployment:** Docker , Jenkins , AWS EC2 , CI/CD , Unit Testing
- **System Design:** Load Balancer, Caching Strategies (Redis, Memcached), Rate Limiting & Throttling
- **Additional Skills:** Git , GitHub , Postman , Maven , react.js
- **Development Approach & Methodologies:** Micro-services , MVC Architecture, Agile , Scrum
- **Soft Skills:** Problem-Solving, Team Collaboration, Time Management

Professional Experience

Java Developer

Swami Software Solutions pvt ltd , Sangamner

Jan 2024 – Present

- Developed full-stack applications for 1000+ users using Spring Boot and React, integrating Restful APIs with unit testing for robust functionality.
- Optimized micro-services architecture, improving scalability by **35%** with NGINX load balancing and zero-downtime deployments via Jenkins CI/CD pipelines.
- Containerized applications with Docker and orchestrated services on AWS EC2 using Kubernetes, ensuring high availability.
- Managed PostgreSQL, MySQL, and MongoDB databases, enhancing query performance by 25% through indexing and schema optimization.

DevOps Instructor (Part-Time)

SMBST College / Msc Computer Science

Aug 2025 – Dec 2025

- Taught Git, Linux, Docker, and CI/CD fundamentals through live labs
- Created and recorded structured video lectures for students
- Mentored students on industry workflows and best practices
- Conducted hands-on DevOps training alongside a full-time development role

Java Developer Intern

Maxgen Technologies

Aug 2023 - Feb 2024

- Developed monolithic architecture based Online Food Ordering system using java Jsp ,Servletes and HTML , CSS
- Make secured login and registration panel where authentication done
- Managed PostgreSQL databases to enhancing query performance by 30% through indexing
- Efficiently managed Order of user and delivery partners

Projects

Appointment Management System

github.com/GordeYash/AMS

- Built a scalable microservices platform for patient registration and notifications, handling **1000+** simulated users with React.js and Spring Boot.
- Developed secure RESTful APIs, using MongoDB for medical notes and PostgreSQL for transactional data, with unit tests covering **90%** of code.
- Deployed on AWS EC2 with Docker and Kubernetes, achieving fault tolerance and modular deployment.
- **Technologies:** Java, React.js, Spring Boot, PostgreSQL, MongoDB, Docker, Kubernetes, AWS, NGINX

Election Management Software

<https://github.com/GordeYash/VoterListDownload>

- Created web/desktop app with python, Java and React.js for voter management and automated PDF generation, supporting **500+** concurrent users.
- Implemented ML-based text-captcha solving and machine-specific login security, reducing unauthorized access by **95%**.
- Deployed on cPanel with MySQL, optimized for high-traffic election scenarios.
- **Technologies:** python , Java, Spring Boot, React, MySQL, Machine Learning

Education

- | | | |
|--|---------------------------|-----------|
| • Msc Computer Science | SMBST College ,Sangamner | 2024-2026 |
| • Bsc Computer Science (Cgpa – 8.59) | SMBST College , sangamner | 2021-2024 |

Certification

- Web Development with Java and Spring Boot – Udemy
- DevOps Instructor Certification – SMBST College
